3. Get access to:

- your selected decor as a full board and in 3D
- Decor Combinations
- Availability information
- Quick Sample ordering

Release the full potential with the EGGER Decorative Collection App

**“ Wood is much too valuable
to just throw it away ”**

Fritz Egger Snr., 1982

Since establishment in 1961 in Tyrol / Austria, everything at EGGER is about wood.

This living material is unequalled in maintaining a healthy ambient air, creating a pleasant atmosphere, and providing quality. This is what we believe in, and you can be sure that with every EGGER material you bring a little piece of nature into your home.

But there are also other reasons why millions of people across the world share their homes with EGGER.

We see ourselves as part of your life. This is what we work for. And this is why here at EGGER, we continue to develop our materials to match your needs.

Feelwood

Never before have decors looked so real.

A first class appearance , amazingly close to real wood , can be realised with the new generation of feelwood synchronized pore surfaces.

Feelwood surfaces are exceptional reproductions with wood's look, feel, and aesthetic qualities. the texture is synchronized with the decor image and provides natural and authentic-looking woodgrains. with the decor on both sides, Feelwood is a striking alternative to veneer and natural wood. End-grain edging, specific to Feelwood, completes the authentic appearance.

in order to emphasis the authentic look of the furniture, the quality of workmanship has to be right, down to the last detail.

- Surfaces are hardly distinguishable from veneer or solid wood.
- Lightfast and durable

- Authentic Feelwood surfaces are available on all core material and as a laminate.

MATERIAL FUSION

Decor is directionally bound

You want to combine the energy of metal as well as the natural aspects of stones, fabrics, marble & concrete only in one decor?

Due to the metallic effect, it offers exciting design

options for your extraordinary projects.

It is a perfect fusion of stone, fabrics, concrete characteristics, and natural appearances.
